Subject: RE: Lake Merriweather/Goshen Dam

Brian - DCR reiterates our support for the project as stated in our letter from Joseph H. Maroon dated March 8, 2004, Re: Project Cooperation Agreement for Repair and Upgrade of the Dam at Lake Merriweather, Virginia.

Prior to advancing the final project agreement for signature, we will need to ensure that all dam safety permitting requirements have been met in accordance with the Virginia Dam Safety Act and its attendant regulations.

Also as noted in the March 8th letter, prior to signing, the Department will need to complete an agreement with the National Capital Area Council of the Boy Scouts of America to perform DCR's obligations under the Repair and Upgrade Agreement and to indemnify this Department from associated expenses.

We will get back to you shortly regarding a date where the USACOE, BSA, DCR, and other associated parties can sit down to continue to advance the dam safety permitting issues.

If you have any additional questions please let us know. Thanks -
David Dowling

Subject: Goshen Dam

Brian:

I have spoken to Mike Jolly who oversees the scout camp and I have visited the dam on several occasions and I fully support the project as it has been stated. The sooner the work is completed the better for all involved.

I started May 1, 2006 as the emergency management coordinator for Rockbridge County and if there is anything that I can do for you please feel free to contact me.

Sincerely,
Robert Foresman
Emergency Management Coordinator
